Presentation by InSight

Introduction

Problems

Problem 1

Spending time on planning for efficient study routines.

Problem 2

Procrastination arising from inadequate planning and the resulting anxiety.

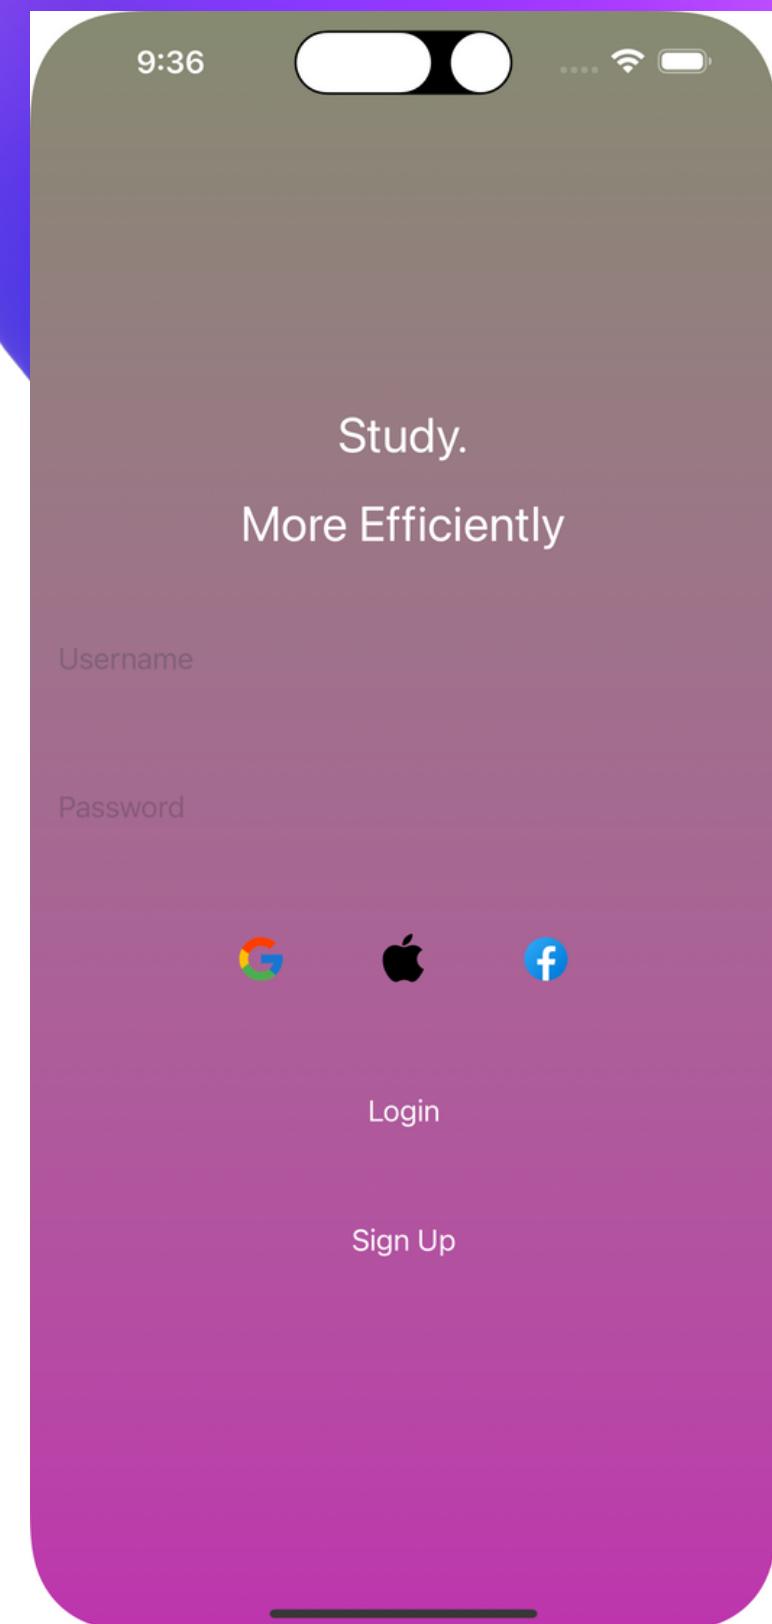

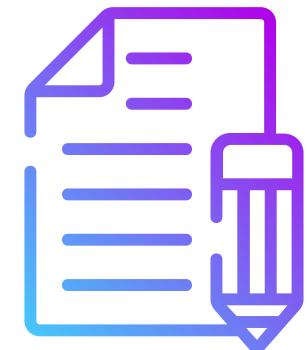

Problem 3

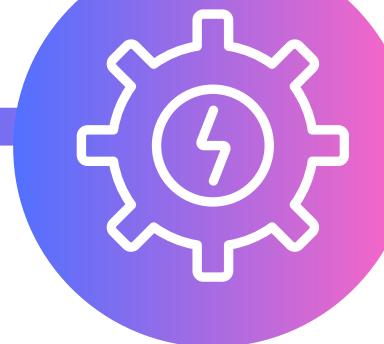

Failure to complete the entire syllabus by the examination or deadline allocated to students.

Objectives

To provide a platform, with easy accessibility that will provide a concise planner to reduce the stress of students and influence productive and constructive studying

Our services

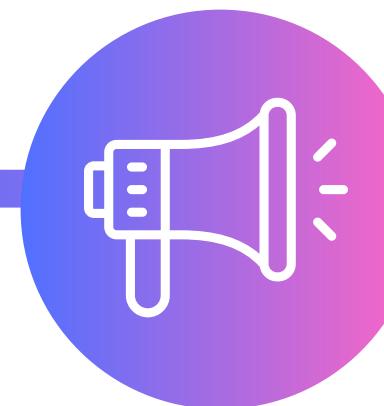

Easy Software

Easy functioning and handling of app.

Planner

Provides an easy and concise planner to make studying an easy task.

Accessibility

Accessible chat bot for working of app and queries in lesson.

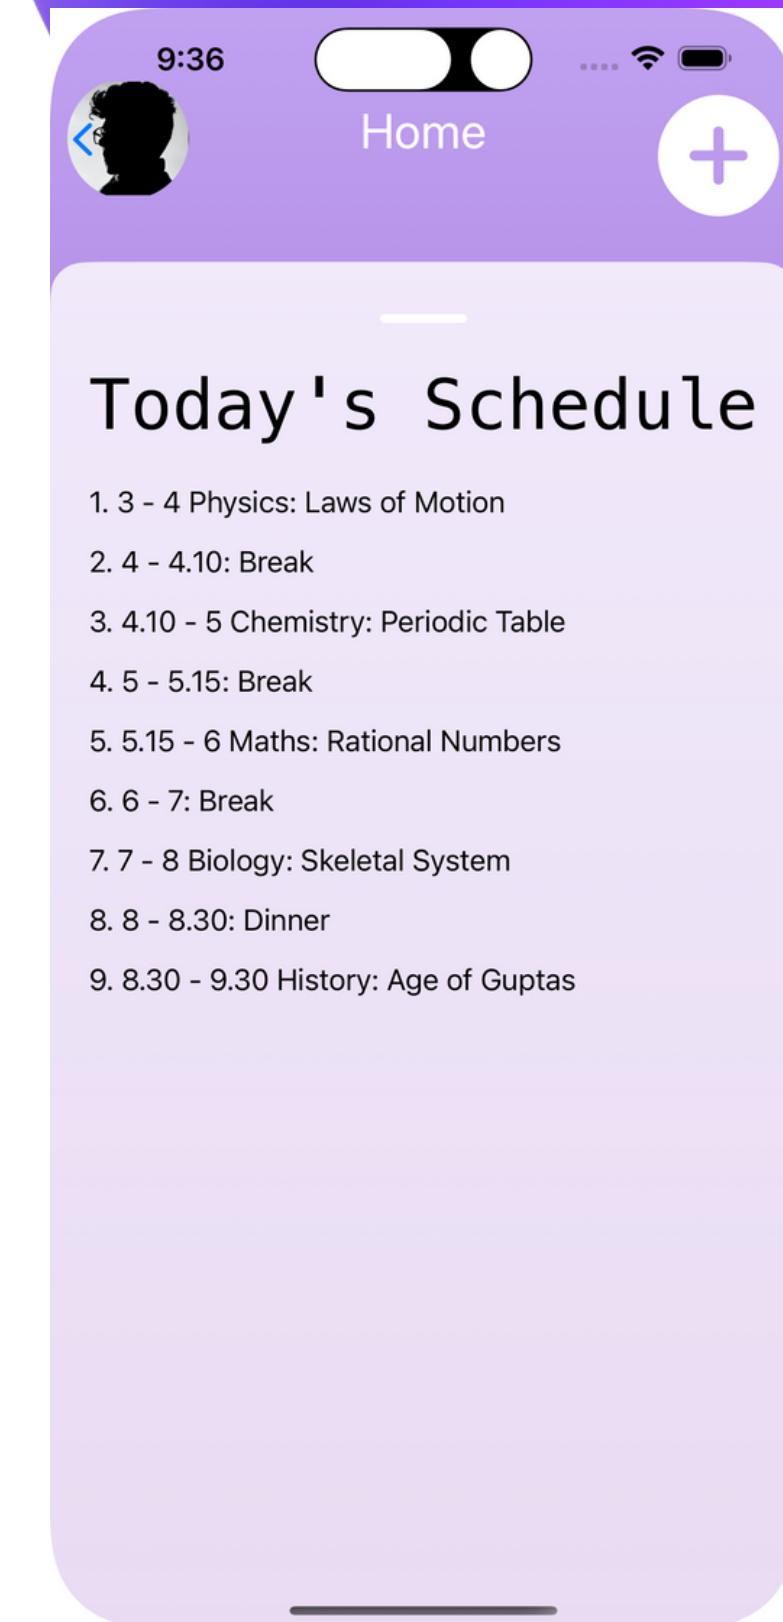

Uniqueness

Special services for different students based on their particular strengths and weaknesses.

Impact

- Provides students with possible and realistic planners for efficient studies
- Reduces the stress of students that is caused by panic about preparing the entire portion for studying
- Saves time that is consumed by the preparation of creating a plan to study
- Increases literacy rate of school
- Improves mental well-being
- Motivates students to do better

Future

Improvement

To add more features such as lifestyle improvement

User Friendly

Add more features like personalised quizzes to improve results

Local Testing

Provide demo to classmates for 14 days and get feedback and spread it large scale

Expand

Expand app to an alternative mode for teachers

Thank you
